

| First Name                                  | Last Name          | Award Name  | Department                                  |
|---|--------------------|---|---|
| Maggie                                      | Robbins            | A.D. Moore Award  | Chemical Engineering                        |
| Giuliana                                    | Fagre-Guerreiro    | Arlen R. Hellwarth Award                                | Biomedical Engineering                      |
| Oliver                                      | Li-De Schaaf       | Arlen R. Hellwarth Award                                | Industrial & Operations Engineering         |
| Grace                                       | Pang               | Arthur B. Singleton Prize                               | First-Year Student                          |
| Valerie                                     | Moura              | Charles F. Barth, Jr. Prize                             | Robotics                                    |
| Jayden                                      | Elliott            | Clifton S. Goddin                                       | Chemical Engineering                        |
| Jose Luiz                                   | Vargas De Mendonca | Distinguished Academic Achievement Undergraduate Award  | Aerospace Engineering                       |
| Ari   | Wang               | Distinguished Academic Achievement Undergraduate Award  | Biomedical Engineering                      |
| Amy   | Chen               | Distinguished Academic Achievement Undergraduate Award  | Chemical Engineering                        |
| Vivian                                      | Kim                | Distinguished Academic Achievement Undergraduate Award  | Civil Engineering                           |
| Victoria                                    | Scheidt            | Distinguished Academic Achievement Undergraduate Award  | Climate and Meteorology                     |
| Ari   | Gottesman          | Distinguished Academic Achievement Undergraduate Award  | Space Sciences and Engineering              |
| Andrea                                      | Liu                | Distinguished Academic Achievement Undergraduate Award  | Computer Engineering                        |
| Ibrahim Musaddequr                          | Rahman             | Distinguished Academic Achievement Undergraduate Award  | Computer Science & Engineering              |
| Samuel                                      | Nolan              | Distinguished Academic Achievement Undergraduate Award  | Electrical Engineering                      |
| Isaac                                       | Sarbacker          | Distinguished Academic Achievement Undergraduate Award  | Engineering Physics                         |
| Anuradha                                    | Bezwada            | Distinguished Academic Achievement Undergraduate Award  | Environmental Engineering                   |
| Sinan                                       | Abdulhak           | Distinguished Academic Achievement Undergraduate Award  | Industrial & Operations Engineering         |
| Kevin                                       | Masel              | Distinguished Academic Achievement Undergraduate Award  | Materials Science & Engineering             |
| Alison                                      | Brei               | Distinguished Academic Achievement Undergraduate Award  | Mechanical Engineering                      |
| Patrick                                     | White              | Distinguished Academic Achievement Undergraduate Award  | Naval Architecture and Marine Engineering   |
| Emeline                                     | Hanna              | Distinguished Academic Achievement Undergraduate Award  | Nuclear Engineering & Radiological Sciences |
| Katelyn                                     | King               | Distinguished Academic Achievement Undergraduate Award  | Robotics                                    |
| Mackenzie                                   | Warwick            | Distinguished Leadership Award - Graduate Students      | Nuclear Engineering & Radiological Sciences |
| Kody  | Whisnant           | Distinguished Leadership Award - Graduate Students      | Chemical Engineering                        |
| Alexios                                     | Avrassoglou        | Distinguished Leadership Award - Graduate Students      | Industrial & Operations Engineering         |
| Yifan                                       | Li                 | Distinguished Leadership Award - Graduate Students      | Industrial & Operations Engineering         |
| Jane  | Kwon               | Distinguished Leadership Award - Graduate Students      | Chemical Engineering                        |
| Jisoon                                      | Lim                | Distinguished Leadership Award - Graduate Students      | Civil Engineering                           |
| Ashley                                      | Carman             | Distinguished Leadership Award - Undergraduate Students | Aerospace Engineering                       |
| Blake                                       | Mischley           | Distinguished Leadership Award - Undergraduate Students | Computer Science & Engineering              |
| Zoe   | Pizzuti            | Distinguished Leadership Award - Undergraduate Students | Aerospace Engineering                       |
| Sinan                                       | Abdulhak           | Distinguished Leadership Award - Undergraduate Students | Industrial & Operations Engineering         |
| Kevin                                       | Masel              | Distinguished Leadership Award - Undergraduate Students | Materials Science & Engineering             |
| Amy   | Wei                | Distinguished Leadership Award - Undergraduate Students | Computer Science & Engineering              |
| Engineering Global Leadership Honor Society |                    | Elaine Harden Award                                     |   |
| Tau Beta Pi                                 |                    | Elaine Harden Award                                     |   |
| Amanda                                      | Liss               | Harry B. Benford Award For Entrepreneurial Leadership   | Electrical & Computer Engineering           |
| Vance                                       | Kreider            | Henry Ford II Prize                                     | Mechanical Engineering                      |
| Zachary                                     | Zlomek             | Hugh G. Rumler Prize                                    | Mechanical Engineering                      |
| Wenxi                                       | Li                 | Ivor K. McIvor Award                                    | Mechanical Engineering                      |

|              |               |   |   |
|--------------|---------------|---|---|
| Nathaly      | Villacis      | Ivor K. McIvor Award  | Mechanical Engineering                      |
| Michael      | Benson        | Outstanding Student Organization Advisor Award                                | Tau Beta Pi-Michigan Gamma                  |
| Joseph       | Breeden       | Professor Pierre T. Kabamba Award   | Aerospace Engineering                       |
